DEATH OF A PETERSBURG DRUGGIST.

[Correspondence of the Richmond Dispatch.]
PRIEBBURG, Va., August 14.—Mr. J. V.
A. Tucker, one of the oldest and most accomplished druggists of this city, died last
night at the home of his brother in Dinwiddle county, where he went several
weeks ago with the hope that a little recreation and rest would prove beneficial.
Mr. Tucker had been continuously in the
drug business since long anterior to the
war, and was thoroughly reliable and
careful in the discharge of his duties. He
was about sixty-one years of age and
leaves a family. He was a member of the
Royal Arcanum and Knights of Honor, and
also a member of A. P. Hill Camp of Confederate Veterans. His funeral will take
place from the First Baptist church in
this city to-morrow at 11 o clock.

KILLED BY THE CARS IN CALIFORNIA. How Dr. Green, of Halifax, Lost His Life-

A Sad Story-The Alliance Democrats. [Correspondence of the Richmond Dispatch.] SOUTH BOSTON, Va., August 14.—Informa-tion has reached here of the accidental death of Dr. Thomas J. Green, a native of Halriax, at Heaidsburg, Sonoma county, Cal., a week or two ago.

of Halifax, at Healdsburg, Sonoma county, Cal., a week or two ago.

It seems that Dr. Green, with his wife and a few friends, was on a wagon trip through the country visiting the mountains near his home, which was at Kelseyville, Lake county. The party had camped at Healdsburg, a town on the San Francisco and North Pacific railroad, and concluded to pay a visit to the town. All of the party followed the wagon road, which ran under a railroad bridge, except Dr. Green, who was walking across the bridge. After going a short distance the party on the ground saw a train approaching and called to Dr. Green, who of late years had become very deaf. He heard them, however, and stepped aside, allowing the engine and all of the train, as he thought, to pass.

BAN UPON HIM. He then got on the trackway again and started across. Just then several freight-cars were seen coming down grade upon him. They had been loosed from the main section in order to make what railroadmen term a "flying switch." Despite every effort and the agonizing cries of his wife and friends, he was unable to hear or understand their second alarm, and the cars ran on him, causing instant death.

HIS RELATIVES.

Dr. Green was a son of the late Thomas J. Green, a well-known lawyer of this county. In early life he married Mrs. Ella Borum, of this county. In 1868 he went to California, where a year later he was followed by his wife and their only daughter. Lizzie. The daughter died some years ago, and now the devoted wife and mother is all left of the little family who twenty-three years ago went away from Halifax. Dr. Green was a brother of Messra. N. T. Green and A. H. Green, of this county, and Mr. R. B. Green, of Richmond.

His death in sight of wife and friends, powerless, yet striving to avert the awni scatted, is too painful for comment and caused a abock to all here who know him. Dr. Green made friends wherever he went, possessing strong and noble impulses, trave, high-toned, and unfainching as a men, yet gentle, loving, and tender as a roman to those he loved. His widow has been too prostrated since the accident to write, but it is presumed she will return to her old home in Halifax as soon as she is able to stand the trip.

Mayor W. D. Burbour has returned from aummer vacation very much improved in health and strength.

FOUND DEAD IN HIS GARDEN.

(Correspondence of the Richmond Dispatch.)

Orancock. August 12.—Intelligence has just reached here of the sudden death of Mr. Levin Phillips, one of the oldest and most highly-respected citizens of Accomac county. He was seventy-five vears old, and had been in his usual health up to the very time of his death. On Tuesday night one of his sons, returning home from the Turlington's-woods camp-meeting about midnight, saw his father walking about in his garden, but as this was his usual custom he thought nothing of it, and going into the house retired for the night. When morning came Mr. Phillips was missing, and on going into the garden his son found nim lying dead upon the ground. In falling he had caughtland broken off a stalk of corn, around which was twined a blooming morning glory. He is supposed to have died from heart-failure. Mr. Phillips was the father of twelve children, all of whom are alive. His funeral services took place to-day.

KILLED BY A DIVE.

Fred. Davis, a negro boy aged fourteen years, went bathing yesterday in Machapungo creek, several miles south of the viltage of Wachapreague, and in diving into the water struck his head against a stump or sunken log and when he came to the surface he was dead. It is supposed that he was strunged by the blow and was

drowned before he could recover consciousness.

Rev. C. D. Crawley, who has been attending the Southern Methodist campmeeting in Turlington's woods, was called to his home in Smithfield, Va., by a telegram announcing the death in that place of Mrs. Harriet Drummond, an aged member of his church, whose funeral services he is to conduct. Mrs. Drummond was a native of Accomac, having been born near the ancient village of Pungoteague, and had many relatives and friends on the Eastern Shore, by whom she was held in high esteem.

DIED AT OBSERVATORY MOUNTAIN A New Milling Industry Near Charlottes-

The Mayor this morning again continued the case of the young man E. W. Epes, of Nottoway county, who is held to answer the charge of passing a fraudulent check. The continuance was made because of absence of testimony for the Commonwealth.

The Clerk of the Court to-day granted a marriage licenseito the young couple who recently eloped from this city and were arrested in Roanoke—the groom being charged with the abduction of the gri. When the parties were before the Mayor the evidence, instead of proving an abduction, showed that the young man ran away upon the urgent entreaty of the young lady, and he was discharged.

The Mayor to-day sentenced the negro Robert Branch, arrested yesterday in Norfolk, to thirty days' imprisonment for larceny.

A HOME MARKET FOR WHEAT.

Another important new industry begun operations to-day—that of the Rio Milling and Manufacturing Company, situated on the Rivanna river, about six miles from Charlottesville. This plant is owned by a stock company and is furnished with all the latest improved machinery for the manufacture of a high grade of flour. The capacity of the mill is seventy-five barrels per day, besides corn-meal. The mill also supplies a home market for wheat, and it is understood that the farmers will realize three cents per bushel more for their wheat here than they would were they to ship it, due, however, to the high freight rates.

ROMANCE OF HAMPTON ROADS. Supposed Drowned Man Returns to Find His Wife Married to Another. (Special telegram to the Dispatch.)

(Special telegram to the Dispatch.)

Nonrolk, Va., August 14.—Eighteen months ago news came to Norfolk that Walter F. Hughes, of Huntersville, had jumped from one of the Old Dominion steamers in Hampton Roads, and that his body had come ashore at Newport News and was there buried on the shore. After waiting a long time his widow, Mary S. Hughes, married a gentleman named Jefferson. Two weeks ago the supposed drowned man returned to his home. His wife would have nothing to do with him, and has entered a suit in the Circuit Court of Norfolk county for a divorce on the ground of abandonment. Papers have been issued against Hughes to attend rules, but up to this time he cannot be found.

THE LAST SPIKE DRIVEN TO-DAY.

[Special telegram to the Dispatch.]

(Special telegram to the Dispatch.)
CLIFTON FORCE, VA., August 14.—The last spike will be driven to-day in the branch road of the Chesapeake and Ohio railway from Covington to the Hot Springs. The building of this road in point of haste is without parallel. The road is twenty-five miles long, was let to contract to Gooch, Rinchard, Carpenter & Co., February 11, 1891, and would have been completed by July 1st, but for delay on account of bad weather in the spring and the failure of the railway company to furnish the rail fast enough.

The road was a very difficult one to construct. Eleven hundreds kegs of powder and 28,000 pounds of dynamite were used. A force of 1,200 men was employed, and about 400 mules. Captain J. C. Carpenter, of Louisa county, was chief manager of the works. The road is pronounced a fine piece of work by those who ought to know, Regular trains will shortly be run over it.

RATING RAILWAYS.

MAJOR WILSON SAYS THE WORK OF THE COMMISSION IS WELL DONE.

Idings-Ten Typewriters at Work-Text-Books on Alcoholic Drinks.

RALEIOH, N. C., August 14.-Your cor respondent to-day interviewed Major James W. Wilson, the president of the James W. Wilson, the president of the Railway Commission. The commission has done a good work, he says, and will effect a total saving of about half a million dol-lars to the State. The assessment of the railway property was made with particular care. The commission so divided the Western North Carolina that the rating of the various branches is different. The Western North Carolina that the rating of the various branches is different. The main line is a first-class road, while the Murphy branch, for instance, is about third class. It would be manifestly unjust to tax all these branches alike. Major Wilson is just now devoting himself to the regulation of express charges. He finds this particularly difficult work, as he can-not get the proper information. He will this particularly difficult work, as he cannot get the proper information. He will later on secure this, he thinks.

A portrait of William Hill has been placed in the State Library. It is in pastel and represents a very old man. Such, indeed, was the Secretary, who served uninterruptedly from 1811 to 1857—the longest term on record in this State, or perhaps in the country.

EXPOSITION BUILDINGS.

A visit to the grounds of the Seathern

haps in the country.

Exposition Bulldings.

A visit to the grounds of the Southern Exposition to-day showed that a great deal of work is in progress. The main building is finished in the rough. Its total length is 1,240 feet, and it is made up of three large buildings joined toxether, so that an aisle extends this entire distance. Of course, the work is rough but substantial enough. As Mr. Patrick wrote Colonel A. K. McClure, of the Philadelphia Times: "We are showing products not buildings." Colonel McClure replied: "You are right, That is what you want to do. The rest of the country can show the buildings, but the South can show the products." Indeed, the show will be a big one, and not one of the southern States will be unrepresented. Florida will be well in the front in this particular, and has a great space. All the ceiling will be of moss, and underneath this gray canopy will be displayed every product of that sub-tropical region. At the west end of the great line of buildings is the machinery hall 100x300 feet in the clear. Every part of this space is taken, as well as much more elsewhere in the grounds for machinery exhibits. Mr. Patrick assures me that everything will be completed September 1st. Next week a large number of laborers will begin the work of placing the grounds in order.

A COMMANDING SITE.

The grounds are owned by the State Fair Association and contain forty acres. The situation is commanding and the view one of the finest in this section of the State. Adjoining are the experiment farm and the Agricultural and Mechanical College, while in the distance lie the city and the public buildings, which half encircle it. The business affairs of the Exposition are large and ten typewriters are at work in Mr. Patrick's office. The decoration of the buildings is under the direction of Mr. Mitteldorter, of Richmond. Two features of the Exposition, as far as this State is concerned, will be the consolidated exhibits of the cotton-mills and the tobaccofarms and factories. Two railways extend through the buildings, and visitors will reach the grounds both by railways and electric cars. A COMMANDING SITE.

TILLER'S CLERK AND JEWELRY GONE. Everything Was Missing, but Rogers Was Nabbed at Knoxville Yesterday.

[Special telegram to the Dispatch.] [Special telegram to the Dispatch.]

Asheville, N. C., August 14.—Yesterday morning when Max A. Tiller, a jeweller, came to his store he missed his clerk, C. C. Rogers, He then opened his safe and missed a lot of gold watches and chains, which in a calmer moment he estimated at \$500 value. He then went to Rogers's boarding-house, but Rogers was missing there. Armed with a search-warrant he burst open a grip and found therein one chain which was Tiller's property. This morning telegrams were sent out to numerous points, and before noon one brought back an answer from Knoxville saying Rogers had been nabbed at that point. He hails from West Virginia, and had been with Tiller about three weeks.

Ten Miles in Eight Minutes-A Methodis Week of Prayer-The Hot Term Over. [Correspondence of the Richmond Dispatch.] [Correspondence of the Richmond Dispatch.]
Grahan, Va., August 13.—Yesterday afternoon while the engineer was doing some switching at Tip Top, ten miles west of here, on the Clinch Valley division of the Norfolk and Western railrond, two "dead" engines and two cars loaded with wheat broke loose from the train and started at a break-neck speed down the grade in this direction. The agent telegraphed along the line to keep the track clear, and several efforts to derail them proved fruitless. The runaway train made the distance—ten miles—in eight minutes, and was only stopped when it struck the bottom of the heavy grade just east of town.

Amusing Incidents at the Expense of Impetuous Men and Nervous Ladies,

[Special telegram to the Dispatch.]

ROCKERIDGE ALUM SPEINGS, VA., August 14.—Last night about 1 o'clock much excitement for a time was created here by an alarm of fire, caused by a servant knocking over a burning lamp in his room. The oil took fire and the room was filled with flames, burning the boo's face painfully, setting his bed on fire, and charring the wood-work in the room. The cry of fire was raised, the bell was rung, and many guests aroused from their sleep ran into the halls and out on the lawn. Some young men who had just come from a euchre party hurried to the scene with buckets of water, and the fire was extinguished, the damage being trivial. The alarm is the topic of discussion to-day, and many amusing incidents are related at the expense of impetuous men and nervous ladies. [Special telegram to the Dispatch.]

THE LIFE-WORK OF AN EDUCATED PHYSICIAN.

IS AN INSTRUMENT FOR THE
CURE OF DISEASE WITHOUT MEDICINE.
BASED on new theories of the cause and cure of disease, it deals with the electrical and magnetic conditions of the body and the gases surrounding it in the atmosphere, controlling these conditions at will. IT IS NOT ELECTRICITY.
DISEASE is simply impaired vitality. The Electropoise constantly adds to the vitality and only assists NATURE, IN NATURE'S WAY, to throw off the trouble. Nothing is easier of proof than that, with this treatment, cures are made which by all other known means are impossible. ACUTE CASES of all kinds are cured in hours by its random use. One tenth of the intelligence and perseverance devoted to ordinary methods of medication works miracies in all CHRONIC CASES. This is an INEXHAUSTIBLE HOME TREATMENT.
